

HOW TO STORE PESTICIDES?

www.croplifeafrica.org

Buy only from authorized dealers.

Buy pesticides according to your needs to reduce storage time and surplus.

Comply with all local laws regarding storage.

Pesticides must be stored safely out of the reach of children and unauthorised persons. Also out of the reach of animals.

The storage place should be dry and well ventilated. Powder presentations should be stored on the top shelves, while liquids should go on the bottom.

Check stored pesticides regularly to prevent spills.

If a spill occurs, follow label directions for proper cleanup and disposal.
